Emissaries of the Cuban menrgents

German capitalists are willing to advance the money to pay China's indemnity to Japan, provided Europeans are allowed to control Chinese cus-

Investigation into the frauds in the ries, ranging from \$40 to \$90 a month.

With the retirement of Col. Henry L. Abbott from active service in the army on August 13, there will be only fifty left for active duty who were commissioned officers in the regular army when the bombardment of Fort Sumter was begun.

The Berlin Tagblatt says: "Russia hole and sees the gleam of the Japanese payonets backed up by the British resume his usp for a little season." THE CONFERENCE AT ROANDEL.

One of the most important public gatherings that ever assembled in Virginia is the conference of Democrats at Roanoke to-day. It is sincerely hoped that wisdom will prevail and that the meeting will be productive of good to the Commonwealth. The purpose of the meeting is to consider the propriety of holding a constitutional convention in order that the people may be relieved of the burthens under which they have so long struggled and which was placed upon the shoulders of the State through the instrumentality of the Underwood Constitution, the production of the carpetbag and scallawag sulers of Virginia during the Reconstruction period.

The sentiment of the Democracy of the State is unquestioned, THE VIR GINIAN considers, in favor of a convention for the revision of the Constitution, Indeed, it is inclined to the belief that it is the sentiment of the best people of Virginia, irrespective of party differences. Virginia is too much ruled and the people are too much taxed for the support of a small army of officeholders, whose services can well be dispensed with. This is an evil that demands correction and the hope is dominant that the result of the conference will so unify action as to make safe a call for a convention by the Legislature to be elected next fall.

If the conference restricts itself to this subject and that of better party organization-an organization which will come in touch with the Democratic masses and free them from the intollerance of party rings and party bosses in the cities and counties of the State -it will act wisely. If it attempts to dabble into the issues upon which there are party differences a mistake will be made that may be grave in its cousequences.

THE RUSH FOR LUROPE,

The Atlanta Constitution says it is estimated that Americans spend \$100, 000,000 in gold every year in Europe, and that this year the amount will doubtless be larger because there will be more outgoing tourists than ever before. The New York papers say the present rush to Europe is extraordinary. The steamers are so crowded that even the rooms of the officers are sold to travelers.

It is said that the business this season will be thirty per cent, greater than that of last year. Saturday last 1.200 cabin passengers were booked. Of course, if these people care to go to Europe there is no way of preventing them, but the wonder is how many of the entire number know anything of their own country? Men and women, Year after year, go to Europe sight-see-

ing, when in this great country of ours no such magnificent scenes can be found elsewhere in the world.

Here we have great lakes, majestic rivers, grand forests and lofty mountain ranges, broad prairies, and as beautiful valleys as the sun ever shown upon, to say nothing of the beautiful and health invigorating summer resorts with which America abound , all having their attractions, scarcely loss important than those to be found on the other side of "the big water;" yet they are all passed unnoticed. Hundrads of thousands of money are taken from America every year by these people, who derive no special good from its expenditure, and possibly less information, and yet the fad is in many cases the folly of visiting Europe.

WHY ARE THEY OF PERGED?

The New York Times continues to expose the shameless pension frauds with which the country is afflicted and says that we pay \$140,000,000 a year in pensions. It says further that half of this amount would suffice if the rolls were purged of the frauds and undeservings. Seventy millions of dollars are said to be gathering recruits in is a pretty heavy amount to be charged Alabama, and sending them to Cuba as to the stealage account, and yet there appears to be no way out of the difficulty except, as the Times suggests, to purge the rolls. By and by the country will begin to ask why this is not done and demand that it shall be.

BOLLARS OR WHAT!

This is the title of a pamphlet, writ-Chicago Public Works Department has ten by Mr. W. B. Mitchell, president revealed the fact that one ex-State of the Third National Bank of Chatta-Senator has been drawing sixteen sala | noogs, Tenn., against the free comage of silver. Mr. Mitchell is the master of a sharp pen and a lucid eye. There is not in his pamphlet a dull page or an obscure sentence. His arguments against silver are developed in a breezy, Western way, with a manifest intention to hit hard, tempered by an honest purpose to fight fairly. He makes no amertion in which he does not sincere ly believe, and he is a ways willing to is preparing for war with Japan. Per- do justice to the pleas of his opponents, haps when the Bear comes out of his His brochure is a valuable contribution to the discussion of the silver question from an honest money point Lion, he will conclude to turn back and of view. The book will have a large circulation and it justly deserves it.

CAROLINA'S MONUMENT.

The unveiling of the Confederate monument at Ruleigh, on the 20th instant, will be a great day in North Carolina, for the entire State bas evine ed pride in its erection, and it is determined to make the occasion the mosmemorable of the kind in the history of the Commonwealth. The Virginians who fought alongside of "the Old North State" troops from 1861 to 1865, will rejoice to hear that Carolina's heroes of "the Lost Cause," are to have a suitable shaft to their memory, and while they may not be able to be present in large numbers to join in the celebration of the event, those who cannot attend will be there in spirit and the event will have their hearty commendation.

He had a high and haughty mien, ills shoes an aggressive squeak, But that was when he'd a salary Of seven dollars a week

He moves about quite meekly now; He shrinks into his collar, But now each hour of his life His income is a dollar.

Clothiers,

Eight Years of Suffering Perfectly Cured by Hood's Sarsaparilla.

\*C. I. Hoort & Co., Lowell, Mass.: "We have tried flood's Sarsaparilla and find it to be all you claim for it. My wife was polsoned by try when a young woman, and for eight years was troubled every

Hood's Cures season with the breaking out and terrible itelating and burning. I thought hers was as bad a case as a yone ever had. She was in this distressing condition every year until she began to take Hood's Sarsaparilla, which has effected a perfect cure, without leaving any scars, and she has had

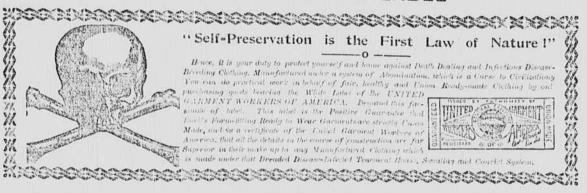

No Sign of the Poison Since. She is well and hearty. I have taken Hood's Sarsaparilla after the grip with good results, and have also given it to our four children. We are all pictures of pertect health and owe it to Hood's Sarsaparilla." J. C. FREEMAN, Vandalla, III.

Hood's Pills act easily, yes; compliy and efficiently, on the liver and bowels.

# HE BIG SHOW
